📍 Sampaloc, Manila

SKILLS

- 6 years of hands-on experience in developing web applications using Laravel framework.
- Strong knowledge of PHP Laravel framework, MySQL, Vue.js and related technologies.
- Experienced working with Test Driven Development (TDD) using PHPUnit and PestPHP.
- Proficient in working with MVC architecture and RESTful API development.
- Basic knowledge on managing a deployment server using Laravel Forge.
- Working experience with Git version control.
- Willing to adapt in any given programming language.
- Here are a few technologies I've been working with recently:
 - Laravel, Php, Mysql, Livewire, Vuejs, Nuxt.js, Tailwind CSS, Javascript, jQuery, Html and Git.

EXPERIENCE

Full Stack Developer

MedProjects Inc.

Nov. 2024 - Apr. 2025

- Developed scalable backend solutions using Laravel, ensuring efficient data handling and secure API development.
- Built dynamic and responsive web applications with AngularJS, enhancing user experience and interactivity.
- Tested and secured API endpoints using Postman, implementing measures to prevent XSS vulnerabilities and ensure smooth service communication.
- Translated wireframes into functional front-end components, ensuring consistency with design specifications and usability best practices.
- Collaborated with cross-functional teams to gather requirements, define project scopes, and integrate front-end applications with back-end APIs for seamless functionality.

Web Developer

Inclusive Financial Technologies Inc

Feb. 2019 - Jun. 2024

- Developed and maintained web applications using Laravel, following best practices and coding standards.
- Integrated third-party APIs and managed databases using Eloquent ORM, migrations, and query optimizations.
- Ensured code quality by writing unit tests and utilizing Laravel's built-in testing suite.
- Collaborated with cross-functional teams in an agile environment (Scrum/Kanban) to define project scopes and requirements..
- Basic experience with Nuxt.js to build progressive web applications.
- Knowledge of deploying Laravel applications to different environments using tools like Laravel Forge or manual deployment.

Web Developer

Acuity Technologies, Inc.

Oct. 2018 - Feb. 2019

- Rebuilt and enhanced an old web application with Laravel, PHP, MySQL, jQuery, JavaScript, and CSS.
- Restructured database and process flow of the system.
- Experienced working with git version control.

EDUCATION

Bachelor of Science in Information Technology

Adamson University
2014 - 2018
